# Great Savings Made by a Trip to New York

Goods Much in Demand Just Now at a Reduction of From 33\\(^1\)% to 50\%.

In answer to many requests of Importers and Jobbers to visit the eastern markets to take advantage of the wonderfully low prices at which desirable goods were being offered, we made the trip the past week, and how amply we were repaid the following items, with prices, will in a small way illustrate. Naturally there is a great desire to unload, and no reasonable offer is refused. This was especially true of goods perfaming to

It is poor economy to go around in ill-fitting, readymade clothing when you can have a suit made to order for the same price. A tailor makes it his duty

to remedy your bad points, while the ready-made suit is cut from one model, and must serve all. A tailor has the advantage as to style, because ready-made clothes are made up at the beginning of the season, and thus they miss the latest and everchanging fads.

THE crack trapshooter has to be a man with steady nerves and muscles absolutely under control-always ready, at the sudden jerk of a string to swing his gun into place and bring down his clay pigeon. This means trained, not to the minute, but to the split-second. He takes no chances with his nerves.

We present the sames of some of these crack shots who smoke Tuxedo. They like to smoke; but they take no chances on a tobacco that might "throw them off."

surposely made to give you all the benefits of the highest grade smoke. It is made from the very finest tobacco Kentucky grows-ripe, mellow, sweet and mild old Burley, aged right up to perfection-day. Then treated by the original "Tuxedo Process," which takes out the sting, makes

Tuxedo smoke cool and slow, and guarantees that it cannot bite your tongue.

Tuxedo has had many imitators; none has ever equalled it in sheer quality and smoking-value.
